

Introdução ao Ruby on Rails

by Jackson Pires

Conhecendo a gem Rubocop

Configurando o Rubocop

Docs

<https://docs.rubocop.org/rubocop/index.html>

<https://github.com/rubocop/rubocop-rails>

<https://github.com/Shopify/ruby-style-guide>

Configurando o Rubocop

Gemfile

```
group :development do
  gem "rubocop-shopify", require: false
  gem "rubocop-rails", require: false
end
```

```
$> bundle install
```

Configurando o Rubocop

```
# .rubocop.yml

inherit_gem:
  rubocop-shopify: rubocop.yml
require:
  - rubocop-rails
AllCops:
  TargetRubyVersion: 3.3.0
```

Configurando o Rubocop

Em caso de erro no rubocop...

Excluir **Gemfile.lock** e travar as versões

```
# Gemfile
group :development do
  gem "rubocop-shopify", "~> 2.3", require: false
  gem "rubocop-rails", "~> 2.12", ">= 2.12.4", require: false
end
```

Configurando o Rubocop

```
$> bundle install
```

```
$> rubocop
```

```
$> rubocop -A
```

Configurando o Rubocop

```
# config/application.rb
# Rubocop Rails - https://github.com/rubocop/rubocop-rails

config.generators.after_generate do |files|
  system("bundle exec rubocop -A --fail-level=E
#{files.shelljoin}", exception: true)
end
```

Configurando o Rubocop

Extensão VSCode

<https://marketplace.visualstudio.com/items?itemName=misogi.ruby-rubocop>

Configurando o Rubocop

Git

```
git add
```

```
git commit -m "Adicionando o rubocop"
```
